

Video Training Materials

If you want to work through this video please download the training data from [here](#). You can use the training data to work through each of the following videos in turn. It is recommended that you save as different workbook name after completing each step.

- 1 [Basic GIS](#)
- 2 [Working with rasters](#)
- 3 [Roughness](#)
- 4 [Working with vector layers](#)
- 5 [Wind data](#)
- 6 [Wind-flow](#)
- 7 [Turbine types](#)
- 8 [Layer hierarchy](#)
- 9 [Layer validity](#)
- 10 [Basic energy optimiser](#)
- 11 [Environmental sensors](#)
- 12 [Mapped environmental impacts](#)
- 13 [Multiple met masts](#)
- 14 [Adjusting WRGs](#)
- 15 [Energy losses](#)
- 16 [Time-series energy capture](#)
- 17 [Curtailments](#)
- 18 [Cost of energy optimisation](#)
- 19 [Uncertainty](#)
- 20 [Turbine performance](#)
- 21 [Gridded layouts](#)
- 22 [GPS integration](#)
